

KoskiSound

Sound insulation plywood

KoskiSound is Finnish birch plywood with 4,0 mm sound barrier in the middle of the board. Boards are composite structures made out of plywood and sound absorbing material. It is an ideal acoustic material for Marine, Railway and ground Transportation.

KoskiSound is suitable for exterior and interior uses. Less fuel consumption and reduction of CO₂ emissions can be achieved by using KoskiSound. Materials are free of hazardous substances like PVC, heavy metals and formaldehyde.

KoskiSound is suitable especially for floors for railway wagons, bus floors, shipbuilding, engine compartment.

Key benefits

-  Good sound reduction properties
-  Good strength and stiffness properties
-  Light weight

ECO-FRIENDLY

ACOUSTIC

LOW EMISSION

EASY MACHINING

Technical specifications – KoskiSound

Base plywood	Koskisen Finnish birch plywood
Bonding	Phenolic resin according to EN 314-2/ class 3 exterior conditions Formaldehyde emission levels of panels fulfil requirements of Class E1 (EN13986), CARB Phase II, ULEF (Ultra Low Emitting Formaldehyde)
Coating	Can be coated on request.
Standard thicknesses	12, 15, 18 and 21 mm. Thickness tolerance +/- 1.0 mm Other thicknesses on request.
Standard sizes	Up to 1450 x 3000 mm
Fire classifications	95/28EC approval, buses E17 118R11, buses
Machining	Drilling of holes edge machining like T&G, chamfer and rebate on request.
Other data	Detailed technical values can be found in Koskisen's Declaration of Performance (DoP). Please visit koskisen.com/download .

Sound reduction

Thickness	Sound reduction R_w dB	Weight kg / m ²
12	29	8.2
15	32	11
18	33	13.1
21	34	14.5

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen plywood products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
